INTRODUCING SUFU

SUFE was founded in 1917 by a group of pioneers who aspired to restore the prosperity of China through modern business education. It was the first of its kind in China's history of higher education. The majority of SUFE's founding faculty members graduated from world-leading universities. They introduced the cutting-edge knowledge in Economics, Finance, and Business to China and aimed to cultivate strategic, entrepreneurial leaders who can transform the status quo and forge new paths for China's development. Their global perspective and Chinese insight shaped SUFE's distinctive spirit that still runs deep in today's SUFE students.

SUFE is proud of its legacy yet resolute to be a future maker. Consistently ranked among China's best universities focusing on Economics, Finance and Management, SUFE is now one of the most established, comprehensive providers of business and management education in China and Asia. Our programs, responding closely to the industry and community needs, have nurtured generations of business leaders and prominent scholars both for China and the world. The increasing recognition of our excellence in research and teaching has integrated SUFE into a wider academic community. With generations of dedicated efforts, SUFE now has become a premier university whose rigorous, high-impact, and interdisciplinary research addresses issues of local and global relevance. The vision and mission as seen by the founding fathers are kept alive by SUFE faculty and students with a renewed understanding.

Proud of the 100 years of commitment, SUFE is leveraging its legacy and expertise that have stood the test of time to embark on a series of visionary and bold changes in every field. SUFE is pressing forward to be a leading university that shapes the future.

SUFE'S VISION

To become an internationally recognized university specializing in finance and economics through exceptional education and research.

3 Strategic Priorities

- ◀ Innovation
- ◀ International
- ◀ Digitalization

SUFE'S MISSION

Nurturing business leaders with global outlook and local insight

Furthering business knowledge by undertaking impactful research

Leading social transformations by addressing public interest

Promoting diversity and inclusion by developing international collaborations

OUR STRATEGY

The wave of digital-intelligent transformation in finance is irreversible. SUFE is advancing a strategy to truly revolutionize finance and economics disciplines with digital intelligence - harnessing cutting-edge digital and intelligent technologies to reshape the ecosystem of education, research, and social services in finance and economics.

Reconstruct the Disciplinary System

Break down traditional boundaries and build an integrated ecosystem of Finance & Economics and Digital Intelligence.

Shift the Research Paradigm

Shift from a theory-driven approach to a scenario- and data-driven approach.

Innovate Talent Cultivation Models

Transition from one-way instruction to human-machine collaborative learning.

Build a Smart Campus

Enhance organizational support and resource investment to build a smart digital campus.

STRATEGY IN ACTION

Since 2023, SUFE has been advancing a series of landmark initiatives under this strategy. SUFE has established new institutions including the Dishui Lake Advanced Finance Institute and the School of Computing and Artificial Intelligence, opening new pathways for the integration of AI with finance across both research and teaching; transformed and upgraded its statistics discipline toward data science; launched a proprietary large language model dedicated to finance and economics education; and founded the Advanced Interdisciplinary College, committed to cultivating a new generation of finance professionals with exceptional AI literacy; and established the Institute of Finance and Economics of Global South, dedicated to advancing interdisciplinary research and strategic scholarship on

the rise of the Global South. These initiatives are not a destination, but the opening chapter of a long-term transformation - SUFE will continue to deepen this strategy, advancing resolutely toward a new vision for finance and economics education in the digital age.

GLOBAL ENGAGEMENT

Since the very establishment, the global outlook has been in our genes. In 2013, SUFE officially adopted “Global SUFE” as a pillar of its strategy to achieve international recognition. Ever since then, we have been taking a full spectrum of initiatives to build mutually beneficial partnerships that deliver international impact. Up till now, we boast an ever-enriching network of over 190 partners spanning 42 countries and regions, including many world-class universities and institutions. The collaborative

opportunities we offer cover student exchange, faculty exchange, immersion programs, joint degree programs, and joint research. Through extensive collaboration and dynamic exchanges, we extend expertise to address global challenges and prepare our students for future success.

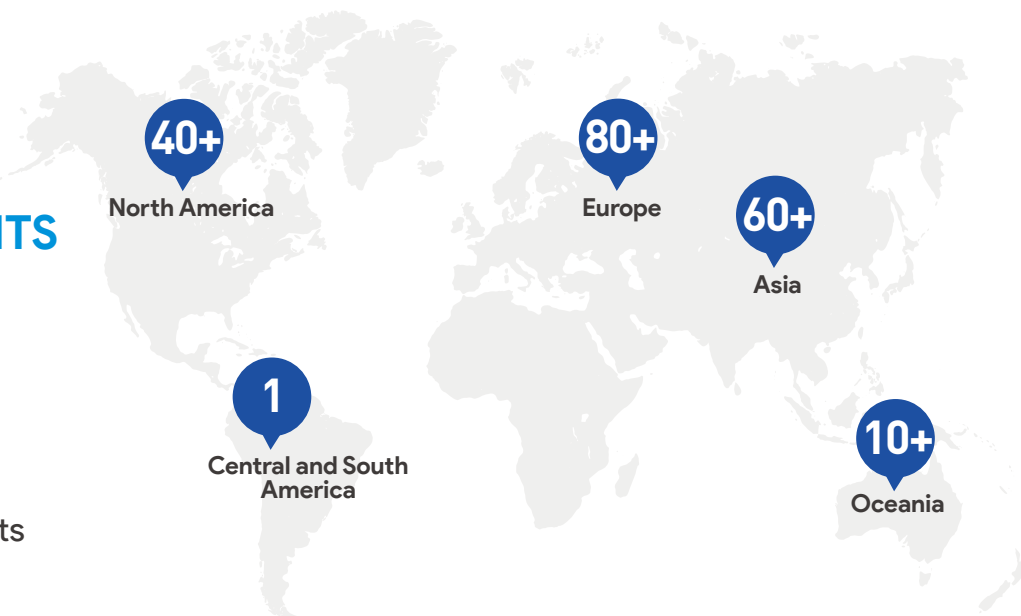

PARTNERSHIPS AND AGREEMENTS

STUDENT EXCHANGE AND STUDY ABROAD

127 programs are offered through out the year, enabling 74% of SUFE students to study abroad, gain international internship experience, or develop research skills in a global context.

CAMPUS LIFE

SUFE seeks to enrich students' cultural and intellectual life through a series of communal and stimulating campus events all year round. We support our students' desire to be good citizens with more voluntary work and activities. We offer various kinds of artistic and cultural experiences to help refine students' tastes and promote the all-round development of them. We aspire to foster a dynamic and vibrant campus culture to release the value of creativity, collaboration, and action.

SUFE is renowned for its sporting tradition and reputation. With a specialized admission track adopted each year to attract high-performing student athletes, SUFE is committed to inspiring its talented athletes to fulfill their sporting potential. As a strong contender in varsity sports teams demonstrating national sporting excellence, SUFE consistently wins a high-ranking position in a number of prestigious international sports championships, including European Go Congress, World Mind Sports Games, International Chess Federation Championships, US Open, French Open, Asian Games, etc.
